Industry Speaks

“Elets Technomedia has done a commendable job in consistently championing the NBFC sector through dedicated summits across India. FIDC values these platforms for spreading awareness and highlighting the industry’s role. Access to funding remains a key challenge for smaller NBFCs, but initiatives like SIDBI–FIDC collaborations on alternate grading models and accelerator programs are paving new avenues for growth.”

Raman Aggarwal

Chief Executive Officer, FIDC

“It’s been an exciting experience to see such a diverse range of innovators and solution providers under one roof. The discussions have been highly engaging, not just one-way conversations, but meaningful exchanges addressing real industry challenges like reducing customer friction and improving backend efficiency. The effort Elets has put into making the event valuable for both participants and exhibitors is truly commendable.”

Aditya Agarwal

Tablets Product Head, Lenovo India

“It’s always wonderful to come together as industry colleagues at forums like this. These events not only bring us closer but also help us present and understand the common challenges we face as an industry. NBFCs and HFCs are not in competition with each other; the market is large enough for everyone to thrive. Initiatives like this that foster collaboration and dialogue are truly commendable, and I wish to see participation in such forums continue to grow.”

Lakshminarayanan Duraiswamy

Managing Director, Sundaram Home Finance

Industry Speaks

“At Zoho ZeptoMail, we leverage the larger Zoho ecosystem for cross-selling, focus on organic marketing through meaningful content, and prioritize engagement over mere conversion. Events like the NBFC Tech Summit are invaluable – they offer direct industry insights and customer feedback that help us refine our features, strengthen support, and better understand regulatory needs. It’s truly a great platform to connect with NBFCs and align our product evolution with their expectations.”

Nikkitha Senthil

Product Marketing Manager, Zoho ZeptoMail

“Elets Technomedia has been doing a great job in bringing industry experts together on one platform to share best practices and discuss emerging trends. For NBFCs like ours, such forums are invaluable – they help us understand how technology, micro-lending, and innovative solutions can expand financial inclusion and better serve underserved communities. In today’s fast-evolving, technology-driven world, these interactions not only keep us updated but also foster collaboration and growth across the NBFC ecosystem.”

Natarajan R

Chairman & Managing Director, South India Finvest Pvt. Ltd.

“Elets Technomedia has been doing a tremendous job in bringing together diverse stakeholders from across the BFSI ecosystem. CredAble has had the privilege of participating in several of their events and panel discussions, and it’s always been an enriching experience. This year too, Elets has succeeded in gathering some of the most influential voices from the industry, creating a true knowledge hub. Over the last two decades, Elets has consistently provided a credible platform for the exchange of ideas, collaboration, and innovation – helping the industry move forward together.”

Manu Prakash

MD and Head – Debt & Capital Markets, India SaaS & FI Coverage, CredAble
